Antoinette Lewis Health Psychologist, Published Health & Fitness Specialist
Ballantyne Hotel - Charlotte NC, USA

"When I first started I couldn't fit into any of my clothes, including my size 10 "fat pants".

Now I can slip into my size 6 slacks and skirts with ease, the zipper slides right up and buttons close with no problem and no bulge! The clothing lies in my body now instead of cuts off circulation. In addition, my skin has become tighter, more vibrant, and younger looking."

"My weight when I began was 154lbs and is presently 146lbs after only 6 Treatments!"
